# Businesses Turn to Careers Industries

“Supporting local businesses and our local community is very important to us and a core part of our business. Our mission goes beyond making great bakery and delivering great service for our customers. It is about making our community a better place to live and work. Careers Industries is helping us fulfill that mission. They don’t just make boxes for us; they make time for us so we can keep a higher number of people focused on our products. We receive the boxes ready to go (from Careers) so we can simply insert the product and be ready to ship. It gives us time to focus on what we do best, which is baking.”

Eric Olesen, president of O&H Danish Bakery

“Careers Industries provides quality work. They do a great job. They supervise the work at every step leaving us confident that it’s done correctly and they always deliver the product to our customers on time. Hiring Careers Industries for specialized packaging projects with short turnaround times is a fiscally responsible solution for a small business like ours.”

Lynnell Carleton, office manager, Carefree Enzymes

“I would recommend Careers Industries to anyone looking for help with packaging. We can count on them to perform the job spot on every order. They take pride in their work and deliver exactly what they promise. Contracting with Careers Industries not only provides value to our business but also allows us to help Careers Industries provide work opportunities for the participants they serve.”

Craig Driscoll, sales representative, North American

“Careers Industries offers a cost-effective and value-added alternative to us hiring temps for assembly projects with short lead times. Plus, they have the room to do the work. They pick up the materials needed from us, provide first piece approval and always deliver the finish project on deadline so we can meet our customer needs. Further, when we provide work to Careers Industries, we’re also supporting our community.”

Peter Fallabeck, purchasing manager, Federal Health

# Fulfillment Services

*Your Reliable and Reputable Resource to Get the Job Done*

Careers Industries' ready to go, motivated workforce helps your organization get the job done. Our Fulfillment Services participants have earned an excellent reputation for the high quality packaging, assembly, sorting, quality control and other subcontract work they provide for area businesses.

## Fulfillment Services Keeps Your Business Going

Regardless of where you are in the business cycle, the work still has to get done. Whether you've made temporary layoffs, decided not to return to pre-recession staffing levels, or have always valued outside partners, Careers Industries can help you complete the job.

**For decades, we've provided Racine-area industries with fast, reliable, cost effective and quality subcontract services including:**

- › Manual and automatic light assembly and kitting
- › Manual and automatic packaging including thermal seal, blister pack, and shrink wrap
- › Collating from brochures to washers
- › Quality services including parts inspection, deburring and sorting

All provided from three area locations including our new Racine location with more than 20,000 square feet of production and warehouse space.

**We're the ideal partner** for basic skills and repetitive types of work, so you can assign your experienced and higher paid employees to responsibilities appropriate for their level of skill and training. And, instead of outsourcing these needs to other countries, local companies can cost-effectively get the work done here in our community and better ensure quality and on-time delivery. When you keep the work here at home you help both our local economy and environment.

Research shows nearly 90 percent of consumers would prefer to give their business to companies that provide work for people with disabilities. When you subcontract with Careers Industries, we're able to provide meaningful paid work opportunities in a safe and supportive environment—real work for real pay.

You also help provide the opportunity for our participants to contribute to their personal and community's economic wellbeing.
